```java
1 package expenses.manager;
2
3 import java.util.ArrayList;
5
6 public interface IView {
7     public void getTableInfo(ArrayList<Double> infoArray);
8     public void getExpensesByTypeCurrMonth( Vector data);
9     public void getExpendsesByTypeCurrYear(Vector data);
10     public void getIncomeAndExpensesByMonth(Vector data);
11     public void setViewModel(IViewModel ob);
12     public void start();
13
14 }
15
```
